REDWOOD ROAD
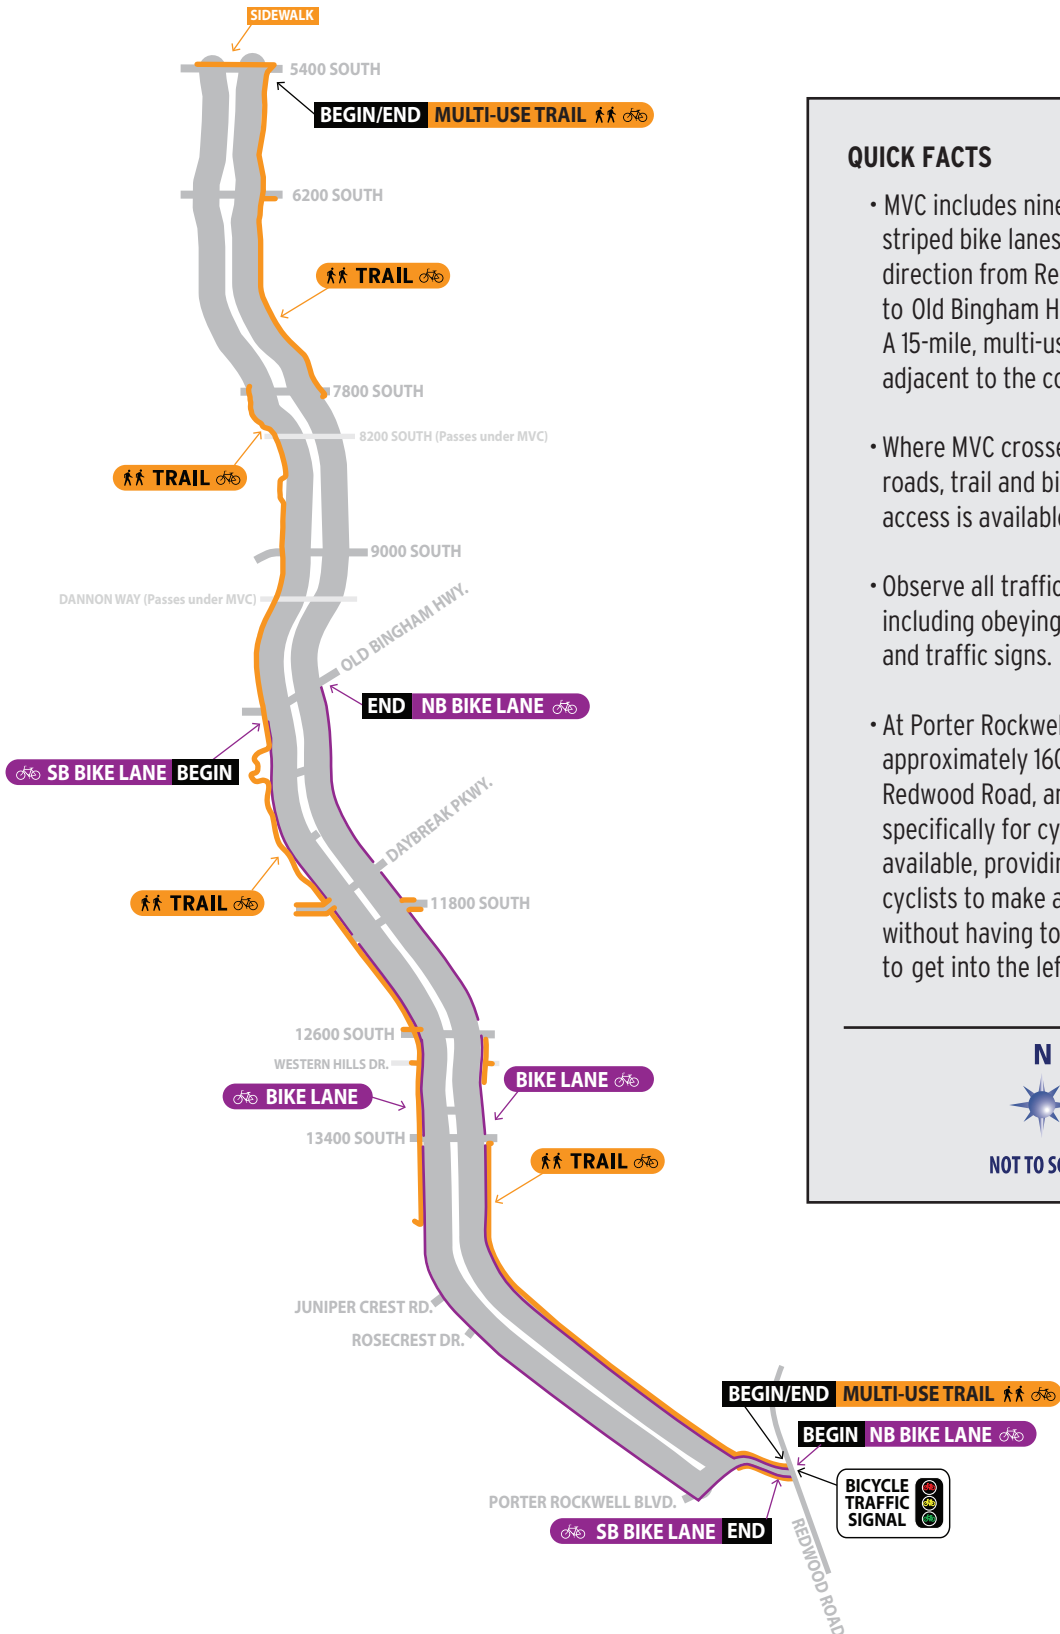

QUICK FACTS

- MVC includes nine miles of striped bike lanes in each direction from Redwood Road to Old Bingham Highway. A 15-mile, multi-use trail runs adjacent to the corridor.

- Where MVC crosses local roads, trail and bike lane access is available.

- Observe all traffic laws including obeying stoplights and traffic signs.

- At Porter Rockwell Blvd., which is approximately 16000 South and Redwood Road, an optional signal specifically for cyclists is available, providing time for cyclists to make a left turn without having to cross traffic to get into the left turn lane.
